With the new year around the corner, it's never too soon to start thinking about your 2023 plans. A new year means new goals, and something you could be manifesting for yourself is a big vacation. Whether you're someone with a suitcase always half packed and ready-to-go, or your passport has never been touched before, you'll still want to know the biggest 2023 travel trends and predictions from the industry's top experts.

Similar to how 2022 was full of spontaneous trips and vlog-worthy adventures, 2023 has its own vibe and travel trends everyone will be wanting to follow. These 2023 travel trends are influenced by different factors like budgets and lifestyles. For instance, many people are working remotely nowadays, which means you can work from just about anywhere in the world. A hybrid work vacay could be the easiest way for you to see everything on your bucket list without having to sacrifice your PTO. There has also been a shift from rental homes back to hotel accommodations to avoid clean-up costs and the stress of having to deal with certain hosts, which will definitely play into how people travel in 2023.

Elite Daily tapped 10 travel experts from Lonely Planet, National Geographic, American Express Travel, EF Ultimate Break, and more to share their their travel predictions for 2023, and here is everything you should consider before booking your first plane ticket for the new year.

Go On Extended WFH Stays

Stephen Arthur, the Director of Leisure Sales at [Timbers Resorts](#), shared that “due to increasing remote work,” Timbers is seeing more guests choosing to go on trips with an extended stay. Instead of just taking the weekend to visit, you can spend an entire week or even longer in your dream destination, exploring when you’re off the clock.
